

Curved Back Sofas & Chairs

Important: Provided measurements should be exact to the item being covered and should not include any extra allowance. As standard, we add a tolerance of +25mm (1in) to width and depth ensure a comfortable fit. We do not add any extra allowance to the height.

Tip: Please Supply Photos

We recommend you include photos of the item we're covering so we can get a clear understanding of the project from the outset.

Required measurements

- A** Backrest depth
- B** Total height
- C** Overall depth

Notes

Backrest depth: push the chair against a wall, then run a tape at arm or seat level to the wall.

Overall depth: push the chair against a wall, then measure at ground level so the curve of the back is included.
