

Pergola Side (Sloped roof)

Important: Provided measurements should be exact to the item being covered and should not include any extra allowance. As standard, we add a tolerance of +25mm (1in) to width and depth ensure a comfortable fit. We do not add any extra allowance to the height.

Tip: Please Supply Photos

We recommend you include photos of the item we're covering so we can get a clear understanding of the project from the outset.

Required measurements

A

Outside-to-outside leg width

B

Height at front*

C

Height at rear*

Notes

*If your pergola has a roof overhang at the front and/or rear: Measure the height from the ground to the top of the sloping roof beam directly above each leg. Do not measure the height to the outer edge of any roof overhang.
