How to measure

Patio Heater *(Pyramid)*

Important: Provided measurements should be exact to the item being covered and should not include any extra allowance. As standard, we add a tolerance of +25mm (1in) to width and depth to ensure a comfortable fit. We do not add any extra allowance to the height.

Tip: Please Supply Photos

We recommend you include photos of the item we're covering so we can get a clear understanding of the project from the outset.

Required measurements

- **A** Total width at base
- **B** Total depth at base
- **C** Total height
- **D** Width of top cap
- **E** Depth of top cap

Notes

Unrivalled protection, tailored to perfection.
