How to measure

Porch Swing *(Flat Back)*

Important: Provided measurements should be exact to the item being covered and should not include any extra allowance. As standard, we add a tolerance of +25mm (1in) to width and depth to ensure a comfortable fit. We do not add any extra allowance to the height.

Tip: Please Supply Photos

We recommend you include photos of the item we're covering so we can get a clear understanding of the project from the outset.

Required measurements

A	Total width	E	Distance from swing chain attachment to backrest
B	Total depth	F	Depth from front of arm to rear of backrest
C	Total height	G	Width of backrest
D	Height to top of arm	H	Distance between chains
